

1929 Ford Model A Standard Coupe (45-A)

This 1929 Standard Coupe (45-A) with rumble seat had a faithful frame off restoration 10-15 years ago. Since that time, it has had a lot of care and has held up well. The coupe runs, drives, and importantly stops, as a Model A from the factory should. The coupe is bone stock with the exception of aftermarket working turn signals.
